laser and light hair removal

If you thought the last word in hair removal was electrolysis, then laser and light hair removal is something you'll want to know about . . .

Laser and light hair removal are efficient, safe, and effective techniques that deactivate hair follicles with minimal stress on the skin. Performed by registered nurses under the direction of the Centre's Dermatologists, permanent hair reduction is generally complete in several sessions.

"The staff are safe, sincere, and comforting. I think they're awesome."

Jane C.

If you're considering laser hair removal, consider us.

We're The Laser and Light Hair Removal Clinic at The Skin Care Centre — BC's Centre for Dermatologic Science. We're experienced, caring health professionals, dedicated to helping you achieve the smoothest skin possible.

Because of our affiliation with VGH and UBC, we're teachers and a centre for higher learning, utilizing the latest techniques to safely speed you toward your aesthetic goals.
